

# CH 27.1

Designed for fully outfitted vehicles, such as patrol and K9 units, or any complex build.

## Custom Face Plate

All the options and instructions are neatly lasered here. No need to be checking manuals to inspect your harness.

## Smart Cables

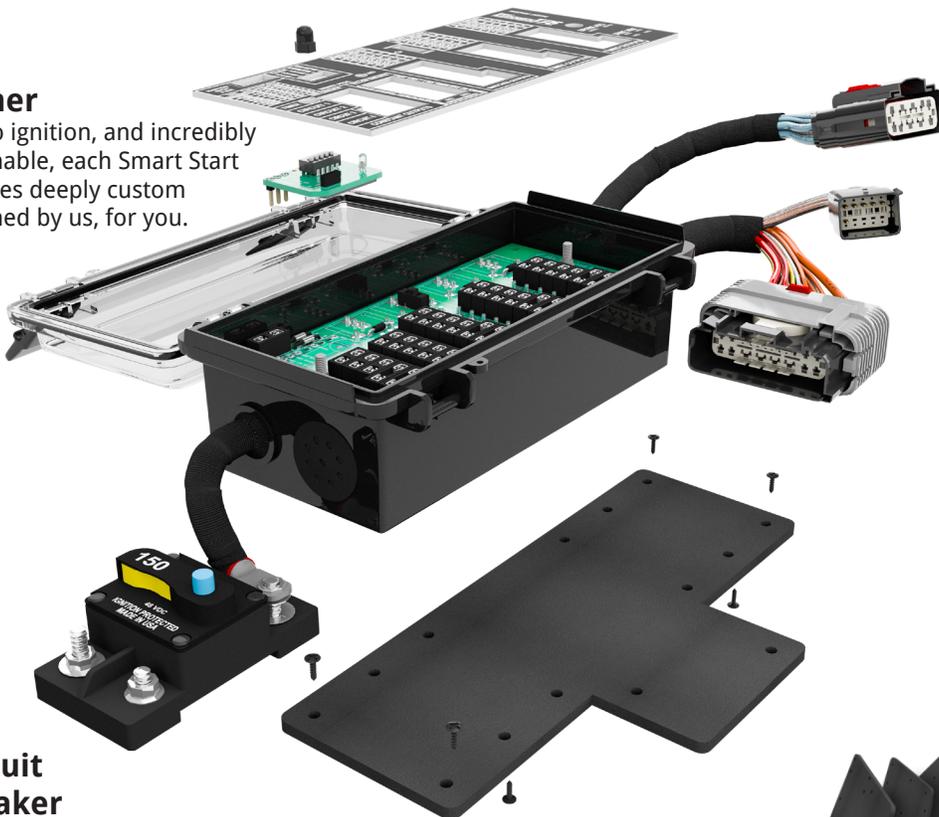

Cam-lock connectors that allow for incredibly flexible placement. All wires are custom printed at no additional cost. We even reverse the print every 3 inches. Little details that really add up.

## 27 Circuits

- 27 circuits (18 x16 gauge, 4 x12 gauge, 4 x10 gauge). All GXL/TXL wire.
- 4 distinct models to choose from. Or we can custom design a harness for you, quickly.
- All 4 models use the same wiring harness, allowing for easy, one off vehicles in the fleet.
- 1 Bypass fused circuit which can be configured as hot or ignition at install.
- 1 Siren mute circuit (insert the siren mute resistor to this output to reduce 90% of siren volume when servicing the siren).
- Bypass wires include siren speaker (or speakers) and multiple light trigger wires.
- Security loops on the lid, and on the panel, allow you to control access.
- Full 5 year, direct exchange warranty, as always.

## TS1 Timer

Fail safe to ignition, and incredibly programmable, each Smart Start timer comes deeply custom programmed by us, for you.

## Circuit Breaker

Keep your units safe with a reliable ignition protected breaker.

## Four Screws Mounting

Custom plates are provided to install the harness wherever you want, in any vehicle. It just takes four screws to mount it.
